### DETAILED ACTION

In response to the amendment filled on 6/9/2005, all the amendment has been entered and the action follows:

In view of the amendment filled to the specification the rejection under 35 USC 112 has been withdrawn.

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35

U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1 and 2 are rejected under 35 U.S.C. 102(e) as being anticipated by Alumot et al. (U.S. 5,982,921).

Regarding Claim 1, Alumot et al. disclose a position detection device comprising:  
a means which acquires amounts of coincidence of identical reference templates  
for a position of coincidence of said templates and for a nearby position thereof, said

Art Unit: 2623

identical reference templates being superimposed (Column 2, Lines 34-44; Column 2, Lines 50-53, first stage, repetitive comparison; Figure 9; Column 8, Lines 29-43. In a die-to-die comparison, different dies on the chip, which are identical reference templates, will be compared.);

a means which calculates a coincidence discriminating value based upon a coincidence amount of said position of coincidence and a coincidence amount of said nearby position (Column 2, Lines 34-44; Column 2, Lines 50-53; Figures 14 and 14a; Column 12, Lines 1-10);

a means which acquires amounts of coincidence between one of said reference templates and an inputted image for a maximum value position at which an amount of said coincidence between said reference templates and said inputted image shows a maximum value and for a nearby position of said maximum value position (Column 2, Lines 44-49; Column 2, Lines 54-67, Column 3, Lines 1-8; Figure 14; Column 12, Lines 1-10; Column 13, Lines 33-53); and

a means which judges that said maximum value position is a coincidence position between said one of reference templates and said inputted image, in a case where a degree of drop in an amount of coincidence at said nearby position of said maximum value position with respect to a maximum value of amount of coincidence between said one of reference templates and said inputted image is greater than said coincidence discriminating value (Figures 22-25; Column 18, Lines 55-67, Column 19, Lines 1-5; Column 20, Lines 25-67, Column 21, Lines 1-43).

With regards to Claim 2, arguments analogous to those presented for Claim 1 are applicable to Claim 2.

### ***Response to Arguments***

1. Applicant's arguments filed 6/9/2005 have been fully considered but they are not persuasive. Applicant argues that the applicant's invention is not the comparison with a reference (see page 7 of remarks). Examiner disagrees as the claim calls for "... coincidence between one of said reference templates and an inputted image ...".

### ***Conclusion***

2. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

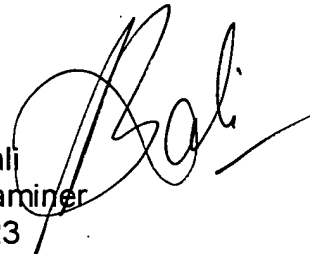

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
